Address: 171, Maharshi Villa, Osara Road, Bharuch, Gujarat, India - 392015

SUMMARY

Frontend Developer (React.js) with expertise in building dynamic, responsive, and user-friendly web applications. Proficient in **React.js, Redux, Context API, and JavaScript**, with a strong understanding of **component-based architecture and state management**. Skilled in **optimizing performance** using lazy loading, code-splitting, and memoization to enhance application speed and efficiency. Experienced in **RESTful API integration**, UI/UX best practices, and Agile development methodologies. Passionate about delivering high-quality, scalable solutions that improve user experience and business efficiency.

WORK EXPERIENCE

Ishi Technolabs

09/2024 - Present

Junior Frontend Developer (React)

- Built dynamic and reusable UI components using React and Redux to improve maintainability.
- Improved web app performance by implementing **lazy loading and code-splitting**, reducing initial load time.
- Collaborated with backend developers to **integrate RESTful APIs and enhance data flow efficiency**.
- Refactored codebase to **follow best practices, reducing redundancy and improving maintainability by 20%**.

Goldenmace IT Solutions

01/2024 - 08/2024

Frontend Developer Intern (React)

- Developed a **role-based admin panel** with authentication and authorization for efficient user management.
- Enhanced UI/UX by **implementing responsive design principles**, ensuring cross-device compatibility.
- Debugged and resolved **UI-related issues** to improve application stability.
- Wrote **unit tests using Jest and React Testing Library**, increasing test coverage by 30%.

EDUCATION

Bachelor of Engineering in Information Technology CGPA 7.49	08/2020 - 06/2024
Shantilal Shah Engineering College, Bhavnagar(Gujarat Technological University)	
12th Science Percentage 70%	06/2019 - 03/2020
Advait Vidhyaniketan, Bharuch (Gujarat Board)	
10th Percentage 82.33%	06/2017 - 03/2018
Advait Vidhyaniketan, Bharuch (Gujarat Board)	

PROJECTS

E-Grocy - Local Store Online Platform

- **Developed a responsive UI** using **React, Redux, and CSS with Bootstrap**, ensuring a seamless shopping experience across devices.
- **Integrated RESTful APIs** to handle user authentication, product listings, and order management.
- **Optimized performance** by implementing **lazy loading and code-splitting**, reducing initial page load time by **35%**.
- **Enhanced state management** with Redux and Context API, ensuring smooth data flow and UI updates.
- Implemented **secured authentication (JWT)**, increasing user retention by **25%**.

Salon Admin App - Role-Based Management System

- **Developed a role-based authentication system**, allowing different access levels for Owners, Managers, and Staff.
- **Designed and implemented a dynamic appointment management system**, reducing booking errors by **40%**.
- Utilized **React and Material UI** for an intuitive and responsive interface.
- **Integrated MongoDB for efficient data storage**, ensuring fast retrieval of customer records and bookings.
- Created a **custom reusable component library**, reducing UI development time by **30%**.

ADDITIONAL INFORMATION

Skills (React)

- UI/UX
- Component Lifecycle
- State Management: Redux, Context API
- REST API Integration
- Performance Optimization: Lazy Loading, Code-Splitting, Memoization
- Agile Development
- Version Control (Git)
- Testing & Debugging: Jest, React Testing Library, Chrome DevTools

Programming Languages

- JavaScript (Advanced)
- HTML (Advanced)
- CSS (Advanced)
- PHP (Basic)
- Python (Basic)

Frameworks

- React (Advanced)
- Node (Basic)
- Angular (Basic)
