

PARTH JIVANI

Frontend-Focused MERN Stack Developer

India

[Email](#) | +91 97125 79779 | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Frontend-Focused MERN Stack Developer with hands-on experience building responsive and full-stack web applications through freelance, internship, and academic projects. Skilled in React.js, Node.js, Express.js, and MongoDB with experience developing responsive user interfaces, REST API integrations, authentication systems, and CRUD-based applications. Worked on deployed client projects using Vercel, Render, and MongoDB Atlas for modern full-stack deployment workflows. Currently pursuing M.Tech in Computer Science & Engineering while actively seeking Full Stack / MERN Stack Developer opportunities.

TECHNICAL SKILLS

Frontend	: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap
Backend	: Node.js, Express.js, REST APIs, JWT Authentication
Databases	: MongoDB, MongoDB Atlas, MySQL
Deployment & Tools	: Vercel, Render, Git, GitHub
State Management	: Redux, React Context API
Practices	: Responsive Web Design, Agile/Scrum
Currently Exploring	: Scalable MERN Architecture, Backend Optimization

PROJECTS

Aradhya Gems – MERN Stack E-commerce Platform

Feb 2026 – Mar 2026

- Developed and deployed a full-stack MERN e-commerce platform for a jewelry business client.
- Built responsive frontend interfaces using React.js and Tailwind CSS and deployed the frontend using Vercel.
- Developed backend APIs using Node.js and Express.js and deployed backend services on Render.
- Integrated MongoDB Atlas for cloud-hosted database management and application data handling.
- Implemented JWT authentication, role-based access control, product management, and order workflow functionality.
- Payment gateway integration remains pending due to incomplete client-side business requirements.

Online Book Store – MERN Stack Academic Project

- Developed a full-stack online bookstore application using MongoDB, Express.js, React.js, and Node.js.
- Implemented CRUD operations, REST API integration, and authentication workflows.
- Built as part of M.Tech academic coursework focusing on scalable full-stack application architecture.

Madhay Construction – Corporate Frontend Website

- Developed responsive frontend architecture and reusable UI components using React.js.
- Focused on mobile responsiveness, clean UI structure, and scalable frontend implementation.
- Project deployment pending due to incomplete client content and business requirements.

Personal Portfolio

- Designed and deployed a personal portfolio website to showcase projects, skills, and development experience.
- Built using React.js with responsive UI principles and performance-focused frontend practices.

PROFESSIONAL EXPERIENCE

Freelance MERN Stack Developer | Self-Employed

Nov 2024 – Present

- Developed frontend and full-stack web applications using React.js, Node.js, Express.js, and MongoDB.
- Built reusable UI components and responsive interfaces using React.js, JavaScript, and Tailwind CSS.
- Worked on client-based web projects involving frontend implementation, REST API integration, authentication systems, and CRUD functionality.
- Deployed frontend and backend applications using Vercel and Render with MongoDB Atlas integration.
- Built and deployed personal and freelance projects to strengthen MERN stack development skills.
- Used Git and GitHub for version control and collaborative development workflows.

Frontend Developer Intern | Goldenmace IT Solutions

Jan 2024 – Aug 2024

- Developed responsive React.js components and frontend interfaces for client-facing applications.
- Worked with Redux-based state management solutions to improve scalability and maintainability.
- Integrated REST APIs and assisted in frontend performance optimization.
- Collaborated with development teams using Git/GitHub workflows and Agile practices.

EDUCATION

M.Tech in Computer Science & Engineering

Navrachana University | Aug 2025 – Present

- Focus Areas: Scalable Systems, Advanced Data Structures, Research Methodology
- CGPA: 8.86

B.E. in Information Technology

Shantilal Shah Engineering College | 2020 – 2024

- CGPA: 7.49
